The heart and hub of the system:
the holder

- Simple, reliable and flexible handling
- Individually combinable components
- High-quality and robust materials
- Compatible with the L-BOXX® system
- Integration into the Sortimo in-vehicle equipment systems

ProClick is changing the way professional craftsmen carry their tools.

The ergonomically padded Tool Belt or simply your own belt forms the basis - the ProClick holder is the heart and hub of the system. Unique: awkward threading and unthreading of the belt is a thing of the past thanks to ProClick. If necessary, the holder can be removed in no time at all or fastened to the belt with the clever quick-release system.

The various tool bags, flexible storage solutions and robust holders, which are equipped with a so-called ClickUnit, can be clicked into place and firmly connected to the holder with a single movement. So you always have everything at hand and still have your hands free.

Tool Bag M

Technical data		Item no.	Pallet unit	RRP in \$ *
Weight:	6.3 lbs	6100000961	30	79.90
