STATUS 2026

L-BOXX

FOR FAST AND EFFICIENT WORK
**MOBILITY
WITH A SYSTEM**

The craftsman works with a huge range of different machine cases, boxes, cartons and buckets. This means it can be difficult to monitor stock levels of consumables, transport is hard work, and every day lots of valuable time is lost during loading, unloading and securing cargo. We have the solution: L-BOXX Baseline, Contractor and ProClick – three mobility systems that are compatible with each other and guarantee fast and efficient working.

Through integration into the in-vehicle equipment systems of numerous well-known manufacturers, such as the market leader Sortimo, they can be stored safely and neatly in the vehicle.

reddot winner 2026

The L-BOXX is much more than just a case – the universal mobility solution, with its numerous combination and expansion possibilities, is an intelligent transport and storage system.

The unbeatably simple and patented click mechanism of the various system products enables intuitive connecting, combining and separating in seconds, as well as clever transport and time-saving carrying in combination.

A well-thought-out range of accessories creates order and overview in the system. This way, nothing is forgotten that will later be needed on the construction site.

The modularly designed L-BOXX system offers everything that the professional craftsman needs for his daily work and that makes his work easier.

L-BOXX BASELINE

PERFECTLY ORGANISED.
**DESIGNED
TO WORK
TOGETHER.**

Whether in the workshop, on the construction site or on the road, the L-BOXX System connects every stage of your workflow into one integrated solution. Its intelligently engineered components are fully compatible with one another and integrate with leading vehicle racking systems, including those from market leader Sortimo.

The result is a fully integrated storage and transport system that extends seamlessly from the workshop, through your vehicle, right to the job site. Tools, consumables and equipment remain securely stored, are transported safely and efficiently, and are always exactly where they are needed.

Integrated compatibility streamlines workflows, improves efficiency and provides maximum flexibility – wherever the job takes you.

L-BOXX
PROCLICK

VERSATILE COMBINATION MIX AND MATCH

The various BOXXes and system products work together perfectly like a well-oiled team. That's why a host of well-known manufacturers use the L-BOXX system as intelligent outer packaging for their products, providing their customers with real value added. Because no matter what colour the L-BOXXes are, they are all compatible with each other!

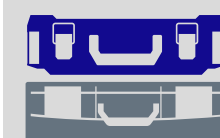

Instead of a confusing collection of different carrying cases and storage containers, professionals can create a uniform and fully compatible system – for easy handling and maximum mobility.

L-BOXX
BRAND SOLUTIONS

L-BOXX
YOUR BRAND. YOUR DESIGN.

Custom-branded L-BOXX systems combine professional organisation with a consistent brand identity for mobile professionals across a wide range of industries.

With three dedicated product lines, the L-BOXX System has become the established choice for equipping mobile professionals. Many leading brands trust us to develop and manufacture customised tool and accessory cases tailored precisely to their products and applications.

Our Brand Solutions combine intelligent storage with high-quality branding, creating a case system that not only protects your products but also strengthens your brand wherever it is used.

L-BOXX BASELINE

OUR MOBILITY SYSTEM THE HARD FACTS

- The robust click mechanism and carrying handles permit L-BOXXes to be transported in bundles of up to 40 kg
- The lid can be loaded with up to 100 kg
- Each L-BOXX has a loading capacity of up to 25 kg
- Splash-proof
- Ergonomically shaped handles and additional side grips for flexible and convenient handling
- BOXXes are clicked together and separated with unbeatable ease
- SafetyLock – lockable with optional padlock or cable lock

CONVENIENT TRANSPORT IN COMBINATION THANKS TO THE PATENTED CLICK CONNECTION

QUICK CONNECTION AND DISCONNECTION OF THE BOXXES THANKS TO SIMPLE CLICK MECHANISM

POWER-SAVING AND EFFICIENT TRANSPORT TO AND FROM THE CONSTRUCTION SITE

FULLY COMPATIBLE WITH NUMEROUS MANUFACTURERS OF VEHICLE EQUIPMENT SUCH AS THE MARKET LEADER SORTIMO

COMPATIBLE

Thanks to its rugged design made from impact and shock-resistant ABS plastic, the L-BOXX can handle nearly every challenge and withstand even extreme loads. Making it ideally equipped for daily use on the construction site. Whether you need to transport heavy material, small parts, machines or tools, the L-BOXX brings everything to the place of use easily and conveniently. The L-BOXX brand stands for more than just a toolbox available in four different sizes. It is the basis of a product family with a system concept.

We also follow this concept when designing the standardised accessories that let you individually adapt the BOXXes to suit your own needs.

L-BOXX
BRAND SOLUTIONS

Create a distinctive brand presence on the road, on site and everywhere in between. The L-BOXX can be customised to reflect your brand identity in virtually every detail while retaining its iconic design and full compatibility with the entire L-BOXX System.

CUSTOMIZED DOWN TO THE LAST DETAIL

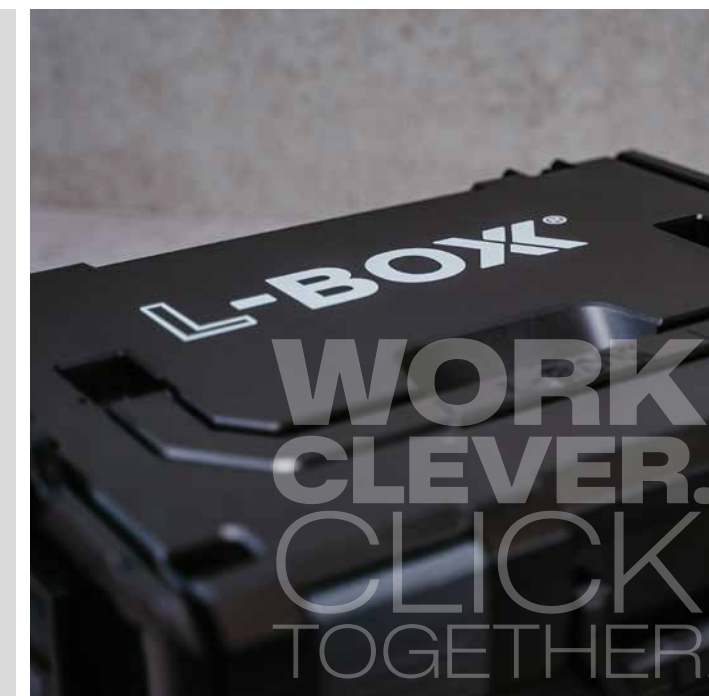

COLOURS

Customise the case system with custom colours and premium logo printing to reflect your brand identity. The result is a cohesive, high-end appearance that combines everyday functionality with a strong and consistent brand presence.

BRANDING & PRINTING

Using a high-quality digital printing process, your logo is applied directly to the L-BOXX lid with outstanding detail and colour accuracy. The result is a durable, abrasion-resistant finish that maintains a premium brand appearance – even in the toughest jobsite environments.

ORGANISED INSIDE. EFFICIENT ON THE JOB.

In addition to our standard accessory range, we offer customised inserts for the L-BOXX Baseline product line to maximise organisation and efficiency. Whether thermoformed or premium foam inserts, every solution is engineered to fit your tools and applications precisely.

Designed to keep tools and accessories securely in place, our custom inserts provide optimum organisation, fast access and reliable protection throughout everyday use.

L-BOXX BASELINE

SAFETY Rocks

THE SAFETY SOLUTION FOR LITHIUM BATTERIES

Whether cars, bicycles, power storage for renewable energies, power tools or electric gardening equipment - lithium batteries are being used more and more. The problem: Lithium batteries are considered dangerous goods and are therefore subject to the law on the transport of dangerous goods with strict criteria. The L-BOXX Battery SafeBOXX offers you the transport and packaging solution according to requirements.

SPECIAL REGULATIONS AND PACKING INSTRUCTION ACCORDING TO ADR

	Special provision	Packaging instruction	Licensing
Small, intact lithium batteries <100 Wh	SV188	-	✓
Intact lithium batteries >100 Wh	SV230	P903	✓
Predotypes	SV310	P910	✓
Batteries for disposal/recycling	SV377	P909	✓
Damaged/defective batteries	SV376	P908	✓
Critically damaged/defective batteries (unsafe for transport)	SV376	P911	✗

OPTIMALLY PREDECTED BATTERY SAFEBOXX

TRANSPORT AND STORAGE OF LITHIUM-ION BATTERIES AND LITHIUM-ION CELLS

- The L-BOXX Battery SafeBOXX is the transport and storage solution for lithium batteries.
- L-BOXX 238 made of special plastic compound with BAM dangerous goods transport certification (UN 3480)
- Stackable & clickable for space-saving storage and easy transport in combination
- Cirrux brand insert fits snugly to the battery and secures it from bumps and unintentional slipping around during transport
- Cirrux marker insert made of non-combustible (according to DIN 4102) and non-conductive material. The permeable surface absorbs leaked electrolytes into the padding material and binds them there

- (absorption capacity 3.49 kg). Heat generated by uncontrolled chemical reactions inside the battery is absorbed. The upholstery material is dust-free.
- Legally prescribed identification labels are clearly visible on the lid
- Simple load securing in vehicle racking systems from numerous well-known manufacturers, such as those from the market leader Sortimo.
- System BOXX made of high-quality and impact-resistant ABS plastic and lid carrying handle for easy handling
- Lockable by rope or padlock (not included in scope of delivery)
- Dust and splash-proof

HOLDER

THE HEART AND HUB
OF THE SYSTEM:
THE HOLDER

ProClick is changing the way professional craftsmen carry their tools.

The ergonomically padded Tool Belt or simply your own trouser belt forms the basis – the ProClick holder is the heart and hub of the system. Unique: awkward threading and unthreading of the belt is a thing of the past thanks to ProClick. If necessary, the holder can be removed in no time at all or fastened to the belt with the clever quick-release system. The various tool bags, flexible storage solutions and robust holders, which are equipped with a so-called ClickUnit, can be clicked into place and firmly connected to the holder with a single movement. So you always have everything at hand and still have your hands free.

L-BOX
BRAND SOLUTIONS

CUSTOMISED DOWN TO THE LAST DETAIL.

The ProClick System combines maximum functionality with a strong brand presence. Even the standard product range can be tailored to reflect your corporate identity through custom colour accents and branded logos.

For even greater individuality, fully customised solutions are available on request. Each ProClick product is designed and manufactured to your exact specifications, perfectly aligned with your brand, your application and your professional image.

BRANDING & PRINTING

A dedicated branding area is included as standard for your logo. Using a high-quality digital printing process, it can be customized with outstanding precision and colour accuracy to complement your brand identity perfectly.

MATERIAL & COLOUR

Manufactured from robust, durable materials, the compact and functional ProClick Tool Belt Pouch System is engineered for demanding professional applications – on construction sites, in workshops, and on the move.

The Tubes and Plate can be individually colour-customised to create a distinctive appearance that reflects your brand and reinforces a professional image.

CONNECTOR

Fast, flexible work – no more awkward threading. The Holder is the core connecting element of the ProClick system.

THE ROLLING WORKSHOP
L-BOXX
CONTRACTOR

- Patented one-hand release mechanism for easy detachment
- Retractable telescopic handle at case height for space-saving transport
- Large heavy-duty wheels
- Durable aluminum rails provide high stability
- Integrated slots allow attachment of ProClick bags and tool holders
- M6 internal threads for mounting accessories

The different heights of the tool cases are perfectly coordinated through the cubing concept, ensuring an even stacking height. This way, a stable base for a mobile work surface can be set up on-site in no time.

SYSTEM

L-BOXX Contractor is a modular tool case system for transporting and storing tools, work equipment, and consumables. The rugged tool cases, made from durable polypropylene (PP), can be used across industries and ensure greater mobility, organization, and safety in everyday work.

For time-saving and secure transport, the modules can be stacked and interlocked. Thanks to the patented one-hand mechanism, quick and easy detachment is possible with a simple lift of the front handle.

With this flexible and robust system, professional tradespeople need only one solution—for jobsite organization, vehicle transport, and workshop storage. L-BOXX Contractor – the perfect all-rounder for maximum flexibility, organization, efficiency, and durability.

YOUR BRANDING. OUR CASE SYSTEM.

MATERIALS & COLOURS

The customisable L-BOXX Contractor combines practical functionality with a distinctive brand presence. Manufactured from high-quality impact-resistant polypropylene (PP), it combines low weight with exceptional durability and excellent recyclability. Built for demanding professional environments, it withstands the rigours of everyday jobsite operations while supporting efficient resource utilisation.

Customise the system to match your corporate colours precisely and add your company logo for a consistent, premium brand appearance across your entire equipment fleet.

BRANDING & PRINTING

Dedicated branding areas on the front and lid of the L-BOXX Contractor provide the ideal space to showcase your company logo.

The front panel can be customised using our premium Tampolamina hot-stamping process. Heat and pressure permanently bond your logo to the impact-resistant PP surface, creating a durable, abrasion-resistant finish that withstands the demands of construction sites and workshop environments.

For the lid, an optional replaceable insert enables seamless, high-quality logo integration while maintaining maximum flexibility.

TOOL BOX

Compact, rugged, and smartly designed. This tool case comes with an integrated divider set for greater flexibility and better organization.

- Stackable and interlocking
- Patented one-hand operation
- Lockable with an optional padlock
- Aluminum rails for extra stability and full L-BOXX ProClick compatibility
